This Santerra De Laponte Tourist Flora tourist attraction in Malang was just opened on December 24, 2019. Although it is still relatively new, this tour, which is built on an area of 4 hectares, is always crowded with tourists both local and foreign, especially during weekend vacations. In the past, this land was unused land, with the emergence of ideas to improve the regional economy, tourist attractions were built with the characteristics of flora or flowers. In this tourist spot, there are 700 flowers which are local and imported flowers. The tourist area has married powders of various types of imported flowers from Europe and America to be able to live with the climate available in Indonesia.

With the main purpose and function as a regional income generation, to improve the economy of the surrounding community in particular and the regional economy in general. [1] So a unique tourist attraction was created, and it still carries the natural beauty of Batu City with a unique building design as an instragamable photo spot. Thus, it is not enough just to highlight the uniqueness and beauty, but it must be equipped with facilities, especially for people with disabilities. So that it becomes a disability-friendly pioneer tour in Batu Malang City.

In the study using legal hermeneutics and survey methods. Where the study was conducted on March 10 – 12, 2023. [2] See it live matters of issue and analyzed according to law Republic of Indonesia Number 10 of 2009 concerning Tourism.

There are no facilities for people with disabilities, among others, there are no wheelchair rentals or disability-friendly street facilities, and there are no bathrooms for people with disabilities. The number of stepped roads without having a handle, making it dangerous for visitors. Unavailability of health facilities in tourist areas in the event of an emergency for visitors. Lack of seating area for visitors to rest, because the area at the tourist site \pm 4 hectares

Referring to Article 6 of the Law of the Republic of Indonesia Number 10 of 2009 [3] concerning Tourism that tourism development is carried out based on the principles as referred to in Article 2, namely realized through the implementation of tourism development plans taking into account the diversity, uniqueness and uniqueness of culture and nature, as well as the need for humans to travel. Flora Wisata Santerra De Laponte needs to add facilities for people with disabilities, so that it becomes a disability-friendly tourism. In addition to focusing on magnificent buildings, flower designs and building shapes that amaze and the unique environment. So with the addition of facilities for the disabled will make Flora Wisata Santerra De Laponte a pioneer of disability-friendly tourist attractions
